---

## RESEARCH INTERESTS <sup>1</sup>

Mobile Computing, Mobile Crowdsensing, Edge/On-Device Artificial Intelligence, Model Compression for Resource-Constrained Devices, and Applied Software Systems for Public Safety.

## EDUCATION

**Bayero University, Kano**

Dec 2021 – Feb 2026

Bachelor of Information Technology

*Academic Standing:* **CGPA 4.44 / 5.00** (Second Class Honours)

*Undergraduate Thesis:* Safetify — A Real-Time Crowdsourced Incident Reporting and Safety Alert Mobile Architecture. Supervised by Murja Sani Gadanya; Faruk Umar Ambursa (HOD).

*Thesis Summary:* Engineered an end-to-end mobile crowdsensing architecture enabling geo-tagged incident reporting via Flutter and three-tier cloud routing. Achieved an average alert delivery latency of 2.1s and a usability score of 4.4/5.0 across system integration testing.

## TECHNICAL SKILLS

**Mobile Ecosystems:** Flutter, Dart, Android SDK, Mobile UI/UX Optimization.

**Backend & APIs:** Python (Django, REST APIs), Node.js, API Integration frameworks.

**Data Architecture:** PostgreSQL, Supabase, Firestore, Real-time Database Pipelines.

**Cloud & Networking:** Firebase (Auth, Cloud Messaging, Functions, Hosting), CI/CD.

**Tools & Paradigms:** Git/GitHub, Agile (Scrum Framework), Edge Syncing Paradigms.

## SELECTED PROFESSIONAL & APPLIED EXPERIENCE

**Flutter Developer** | Tubali (Fintech)

2026 – Present

- Develop and maintain high-security mobile authentication flows for an active fintech production environment.
- Managed the migration of core account activation and PIN/password reset flows to optimized OTP-based verification systems.

**Mobile Developer** | Clavon Solutions, Kano

Feb 2026 – Present

- Develop responsive cross-platform software systems adhering strictly to mobile clean architecture patterns.
- Collaborated within distributed Agile/Scrum engineering pipelines from UI/UX implementation through final production feature delivery.

**Founder & Technical Lead** | Hausasoft Technologies

Dec 2025 – Present

- Established a technology startup delivering high-performance mobile application development services and community digital-skills programs.
- Organized and led an engineering bootcamp covering instructional design and technical mentorship in web and cross-platform mobile development for early-career learners.

## CERTIFICATIONS & EXTENSIONS

- **Certified Cybersecurity Professional** – Cisco Networking Academy (2023).
- **Languages:** English (Fluent), Arabic (Fluent), Hausa (Native).
